III. PROJECT JUSTIFICATION

Project Background

The acquisition of an industrial oven for the BS Hospitality Management program signifies a strategic investment, aligning with the program's commitment to excellence. This addition is anticipated to positively impact student learning outcomes, fostering comprehensive skill development. By enriching the educational experience, it aims to better prepare students for successful careers in the hospitality industry, showcasing the program's dedication to providing practical and hands-on opportunities for a diverse skill set. This forward-looking approach emphasizes the program's commitment to academic excellence and ensures students are well-equipped for success in the competitive hospitality sector.

1. Goal

To elevate the BS Hospitality Management program at Mindoro State University by procuring an industrial oven, fostering a dynamic learning environment that aligns with industry standards, enhances student skill development, and ultimately produces graduates exceptionally prepared for successful and impactful careers in the ever-evolving hospitality industry.

2. Purpose

- Equip students with hands-on experience in using industrial ovens, fostering practical skills essential for careers in baking and pastry production.
- Provide a platform for students to master the art and science of baking, enhancing their understanding of ingredients, techniques, and equipment operation.

3. Project Outputs

- Procure a high-quality, industry-standard industrial oven with specified technical features suitable for bread and pastry production.
- Ensure proper installation and integration of the oven into the existing facilities.

4. Project Activities

2. Social Benefits

Graduates, equipped with hands-on expertise, become drivers of community empowerment and potential entrepreneurs, contributing to the local economy. The program's focus on culinary diversity enriches local food culture, introducing innovative baked goods. Additionally, graduates actively engaged in the hospitality industry create spaces for social interaction and networking, fostering community cohesion. The preservation of cultural heritage through traditional recipes and culinary techniques ensures a lasting impact. In summary, the social impact extends beyond skill development, positively influencing the fabric of the local community.

3. Economic Benefits

By providing students with hands-on experience in bread and pastry production, the program enhances their employability and competitiveness in the job market. Graduates with industry-relevant expertise become valuable assets to the workforce, potentially stimulating economic activity at the local level as they contribute to the success of bakeries, pastry shops, and hospitality establishments. This emphasis on practical training not only attracts high-caliber students to the program but also fosters stronger collaborations with industry partners who recognize the value of graduates equipped with hands-on skills.
