FOI FEEDBACK REPORT

I. Overview

Mindoro State University (MinSU) remains committed to upholding the constitutional right to information by continuously refining its Freedom of Information (FOI) processes. To ensure high-quality service, the University has integrated the **FOI Feedback Survey** into its standard operations. This report summarizes the efforts exerted in gathering and interpreting public feedback to enhance the operationalization of the right to access information.

II. Scope

This report covers the application of the FOI Feedback Survey Form for the Fiscal Year (FY) 2025. For FY 2025, there were **35 requests** received by MinSU, submitted either via email or through walk-in applications. The scope includes two specific categories of requests:

- **Simple Requests:** Inquiries that did not require clearance from the University's Data Privacy Officer (DPO).
- **Sensitive/Personal Information Requests:** Inquiries involving sensitive data that required security clearance from the DPO and the execution of a Non-Disclosure Warranty (NDW) by the requestor, as mandated by the Data Privacy Act and University protocol.

Of the 35 total requestors, only 14 individuals provided responses to the FOI feedback survey form. These respondents were primarily walk-in requestors who completed the survey upon the conclusion of their transactions.

III. Methodology

The University utilized a structured process for gathering feedback from Requesting Parties for Standard Requests. Requestors evaluated the service based on handling, timeliness, clarity of information, and effective communication. Ratings were collected and summarized per quarter of the fiscal year to ensure a continuous assessment of the FOI program's implementation.

IV. Data Interpretation

Quantitative Discussion

Based on the gathered feedback, the University obtained the following performance ratings throughout the quarters of FY 2025:

Quarter	Number of Feedback Responses	Average Satisfaction Rating	Qualitative Interpretation
Q1	7	4.40	Very Satisfactory
Q2	3	4.53	Outstanding

MINDORO STATE UNIVERSITY

Victoria, Oriental Mindoro 5205 Philippines

Q3	3	4.60	Outstanding
Q4	1	4.60	Outstanding
Total	14	4.49	Very Satisfactory

Qualitative Interpretation

The agency achieved an overall annual satisfaction rating of **4.49**, which is classified as **Very Satisfactory**.

- **Communication and Assistance:** Requestors specifically highlighted that while the requirements for personal information are extensive due to the Data Privacy Act, University staff effectively explained why it is necessary for them to follow the protocol and assisted them in accomplishing all requirements to successfully gather needed data.
- **Process Efficiency:** Data for several requests were successfully released following the securing of DPO certifications and executed Non-Disclosure Warranties.
- **Timeliness and Clarity:** Most respondents indicated high satisfaction with receiving information within the required period and the clarity of the University's communication.
- **Service Satisfaction:** The majority of respondents expressed satisfaction with the University's clear and effective communication throughout the process.

V. Recommendation

As the University received a "Very Satisfactory" rating, it is not strictly required to create an Improvement Action Plan (mandatory only for ratings of "Satisfactory" to "Poor"). However, to reach an **Outstanding** rating in the next fiscal year, the following actions are recommended:

- **Digital Feedback Integration:** Develop a more robust method for email-based requestors to respond to the feedback survey to increase the sample size beyond walk-in participants. Also, the University is currently developing a system for the Data Requests with integrated automatic feedback mechanism from the requestor.
- **Streamlined DPO Assistance:** Continue providing proactive assistance for requestors navigating the Data Privacy Act requirements and Non-Disclosure Warranties.
